Becoming People & Planet Positive by 2030

IKEA wants to inspire and enable people to live a better everyday life within the limits of the planet. So how sustainable is IKEA? Well with veggie hot dogs, responsibly sourced materials, energy and water saving solutions and much more we want to inspire change and become People & Planet Positive by 2030. Because, as Ingvar Kamprad said: "No method is more effective than the good example".

Take advantage of lighting – both natural and directed lighting can enhance a warm and welcoming atmosphere.

You can hang your bag or jacket on the hook underneath STENSELE table (plus the feet can be adjusted so it stands steadily on uneven floors).
